Team ASA WPA

Reed Truck Ready To Go

Fall Is in Full Swing at Reed

October was another busy month at Reed Building Supply! From commercial supply to our growing residential division and retail showroom, our team stayed busy supporting projects across the region. This month, we completed **70+ deliveries, supported 30+ projects**, and took on new opportunities.

On October 21, we hosted our first **U.S. Minority Contractors Association (USMCA)** Meet & Greet with **J.R. Bittner** from Mistick Construction! The event brought together industry professionals from across the Pittsburgh region to build relationships, share experiences, and discuss opportunities within the construction industry.

The Reed team also hit the field for the **Master Builders' Association (MBA) vs. American Subcontractors Association of Western PA (ASA WPA)** Committee Kickball Game! It was a fun opportunity for some friendly competition and networking outside of work.

Specialty Supply

Beyond everyday building materials, we source specialty products too! This month, we supplied **Brava Spanish Barrel Roof Tile** for a **Gorilla Construction** project, bringing a unique roofing design to life.

Did You Know?

We have a Job Site Solutions Division!
What does this mean? Through our trusted vendor relationships, we can help contractors source everything from everyday jobsite essentials to those unexpected, one-off needs. We can also coordinate delivery directly to your jobsite, helping you save time, simplify purchasing, and keep your project moving. Contact **Aaron McGee:** ajm@reedbuildingsupply.com

Halloween Fun at Reed

We got into the Halloween spirit at our October employee get-together! The Reed team dressed up, enjoyed some good food, played cornhole, and spent some time together for a little Halloween fun. We're looking forward to Reedsgiving in November!

Makita Tools At Reed

You may have noticed some **Makita tools** around our showroom! We have a selection available for purchase, but what you see is just a small part of what we can get. Through our relationship with Makita, we have access to a much larger selection of tools, equipment, and accessories. Next time you're in, take a look around or ask our team about what's available!

Project Highlight: Mascaro Construction | PWSA Aspinwall Water Station

Reed Building Supply is proud to support Mascaro Construction on the PWSA Aspinwall Water Station project. Working alongside our trusted vendor partners, we supplied vertical and horizontal pumps, pipeline materials, and lumber to support the project's needs. This project highlights our ability to source specialized materials beyond traditional building supplies. We appreciate the opportunity to support the Mascaro team!

One of many deliveries to the jobsite!
